ADDITION OF LENDER FEES TO MORTGAGE

Certain lender fees are payable, for the mortgage that you are applying for. Some of these fees may have to be paid in advance, however others you will have the option of adding to your mortgage. If you choose to add the fees to your mortgage you will be borrowing more and this will increase the amount of interest that you will pay over the life of the mortgage.

You have been provided with two versions of the Key Facts Illustration, one of which shows the fees paid in advance and the other showing the fees being added. From these illustrations you can see the effect of adding the fees to your mortgage and the impact that this will have on the interest that you will pay to the mortgage lender.

We have discussed the advantages, disadvantages and costs of both adding the lender fees and not adding the lender fees to the mortgage amount and you have chosen to add the lender's fees to the mortgage.

Property address	55 Avon Street, Warwick, CV34 4PX
Lender Name	Nationwide Building Society
Mortgage Borrowing (Including Fees)	£230,999
Total Amount of Fees Added	£999

We understand the consequences of the decision to add the lender fees to the mortgage and wish to proceed on this basis.
