Mary Lou Carroll – Family friend
Tiffany Rowlett – Family friend

Apologies:

Lisa Baker – Social Worker
Fiona Ferguson – Social Worker

Michael & Elise – Views obtained ahead of conference

Daniela Elena Antonovici - Views obtained ahead of conference

Introductions were completed and information sharing of the following

Beth gave an update on behalf of Lisa and Fiona. Family were given time to ask questions. Tracey gave a very positive update on Loki. Family have asked for Loki to be weighed again. Tracey will make an appointment to do this. Mark and Monica would like to chase up on a passport being issued for Loki so they can travel this year.

The Conference Questions

The following questions provided the focus for the meeting and were answered by the family during private family time.

- 1. Who can provide childcare and periods of respite for Mark and Monica? This needs to include ad hoc, planned, emergency, day and night care support.**

Fleur -Planned visits and Oliver may be able to help with transport.

Mary Lou – Can help with emergencies providing it works around other childcare needs.

Marie – Emergency ok with nights included if not busy. There are already planned visits and Mark and Monica's house

Tiff – Planned regular support – Weekend or evenings. Day / Nights as long as planned. Emergency evenings ideally but harder to commit.

Oliver – Planned as live 1 ½ hours away. Can help for longer periods of time.

Denise – Happy to babysit however is selling her home and moving away soon. Denise will support in introducing friends who can help babysit.

Daniela - Me and my husband are both full timers and depending on the need we can back up either of us in any type of situation regarding Loki or their grandparents. We are friends from 2019 approximately and we have had regular house visits, birthdays and different celebrations, going out or phone contact no matter what the occasion was. We have a really lovely relationship and we are happy to have Mark and Monica as friends

and now that beautiful little miracle Loki is here brought even more connection and friendship.

There is no conditioning regarding any type of need for supporting and backing up all three of them

2. How will the family recognise if Mark and Monica need more support and who will be responsible for actioning this?

Fleur- Would like them to tell her by call or text

Mary Lou- Monica shows signs of being down, I'd suggest meeting or reassurance.

Marie – Would like them to tell her.

Mark would reach out to Denise if he is struggling.

Oliver – weekly calls to check in and would like them to tell him.

Tiff – Support by regular check-ins but harder to commit to due to personal commitments.

Daniela - Like any normal human being in this world we can have happy moments or less happy moments during our existence. I pride myself with quite a lot of positive mind, and I find that everything has a solution as long as you are open-minded. By having constant contact on social media or personal telephone contact number we have always managed to know our whereabouts or situations that we had to go through. On both sides we have been supportive and had nice constructive conversation about our sorrows or day by day events (ex: decisions regarding career changes, shopping, planning family and friends dinners etc)

Monica has previously struggled with asking for support however has agreed to reach out when needed.

Mark will make a what's app group with everybody who joined the conference today. This way they will be able to ask for support and whoever is available can help.

3. How can family members and friends support Loki and his grandparents?

Oliver and Fleur to help Granny Marcias appointments to support Mark

Mary Lou – Coffee chats.

Denise – Advise and education about school system.

Michael and Elsie - As I mentioned over the phone Elise & I invited Mark (whom I have known since the age of 7), Monica and Loki to join us with another mutual school friend

David with his Labrador for a 3 night self catering mini break holiday near Glastonbury to celebrate my birthday. Mark advised ahead of the visit he thought they would stay 2 nights but we were very happy to hear during the visit to hear them say they would be staying the third night. The holiday introduced some perspective and normality. Elise and Monica looked after Loki in the mornings and Mark, David & I when for 5-mile walks. We all went out in the afternoon and on the final night Monica prepared the evening meal whilst the rest of us were entertaining Loki. We plan to meet again over the summer and will continue to do so in the future.

Daniela - Mark and Monica, when they have decided to take care of their first grandchild, they have done exactly what me and my husband would have done in such a situation, and we will do anything it is needed and possible to back them up. That includes emergencies or time off, advice or financial support if needed and requested.

4. Who can help supervise family time arrangements in the future if this were agreed?

The family would like more information about family time centres. Everyone was in agreement that this could be the best solution.

Fleur – Not keen as she doesn't know Jack and hasn't seen Diana for a long time.

Mary Lou – No as may struggle to enforce boundaries and doesn't know Jack.

Marie – I can help but believe social services should be involved to help.

Denise – Willing to trial helping but also hopes social services will help and would be unhappy to do this on her own.

Oliver – Wants to help however would struggle setting boundaries with Diana.

Tiff – This will be harder to support due to personal commitment.

Daniela - Depending on the days or conditions, as we have also work and trips planned, we would always be able to be there when is needed. At the moment I think Mark and Monica they are in perfect control, and they have understood the level of responsibility that they have on their shoulders. Loki is a tiny beautiful little boy that he is extremely lucky in having such a lovely pair of grandparents, loving uncle and some people like me and my husband that we have a lot of love to give and that are not giving up on people in need.

The question was raised if this were to be left to the support network to do should there be two supervisors?

5. What boundaries need to be put into place with Diana?

Mark – Rules around places, times and behaviour. Adjust frequency as needed. If you choose to do X then the consequence is Y. Not punitive.

Some of the boundaries included. No visiting Mark and Monica's home and they will not visit Diana's home.

Meetings will need to be in neutral place.

Loki will know that Diana and Jack are his parents and Mark and Monica are his grandparents.

They are happy to send pictures to Diana

Mark and Monica are happy for cards and gifts to be sent to Loki however this should be handed over during contact sessions.

6. If things get too much, where could Monica and Mark go?

Mary Lou – They can visit me in Royal Wotton Bassett

Oliver – They can stay over if needed.

Tiff – Always happy for them to come to my house.

Micheal and Elise - As a lifelong friend of Mark I am very happy to be contacted by Mark at any time for him to confide in me with any concerns he has. I am a good listener and people do speak to me more openly about their lives as I am not judgemental. Elise has known Monica all of their married life and she is equally happy to be contacted if things get too much for her too. Often just letting people talk helps put their concerns about life into perspective

Daniela - Mark and Monica have and had a great life together, they are a great couple, responsible people and I think they are managing the whole situation with great maturity like all the normal people around the world. All of us we are having our too much moments, who doesn't? But I trust them and we are friends just because they are great people with loving character, good education, honesty and common sense which are hard to find qualities in our days.

I will reach out in 12 weeks' time to see if a review is wanted.
Thank you all for your contribution today.
